112TH CONGRESS
1ST SESSION

H. R.

To amend the Elementary and Secondary Education Act of 1965 regarding environmental education, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

Mr. SARBANES introduced the following bill; which was referred to the Committee on _____

A BILL

To amend the Elementary and Secondary Education Act of 1965 regarding environmental education, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the
5 “No Child Left Inside Act of 2011”.

6 (b) TABLE OF CONTENTS.—The table of contents for
7 this Act is as follows:

Sec. 1. Short title; table of contents.

Sec. 2. Findings.

Sec. 3. References.

Sec. 4. Authorization of appropriations.

TITLE I—ENVIRONMENTAL LITERACY PLANS

Sec. 101. Development, approval, and implementation of State environmental literacy plans.

TITLE II—ESTABLISHMENT OF ENVIRONMENTAL EDUCATION PROFESSIONAL DEVELOPMENT GRANT PROGRAMS

Sec. 201. Environmental education professional development grant programs.

TITLE III—ENVIRONMENTAL EDUCATION GRANT PROGRAM TO HELP BUILD NATIONAL CAPACITY

Sec. 301. Environmental education grant program to help build national capacity.

1 **SEC. 2. FINDINGS.**

2 The Congress makes the following findings:

3 (1) Environmental education is essential for—

4 (A) enhancing student learning and prob-
5 lem solving skills, especially in science;

6 (B) creating responsible and engaged citi-
7 zens; and

8 (C) producing graduates who are prepared
9 to address the challenges, adjustments, and op-
10 portunities that will be present in the life and
11 the workforce of the 21st century due to threats
12 to human health, economical development, bio-
13 logical diversity, and national security arising
14 from environmental stresses.

15 (2) Studies documenting the increasing indica-
16 tors of nature deficit show that time spent out of the
17 classroom for learning during the school day is crit-

1 ical to the intellectual, emotional, and physical
2 health of children and that providing students with
3 quality opportunities to directly experience the nat-
4 ural world can improve students' overall readiness to
5 learn and academic performance, as well as self-es-
6 teem, personal responsibility, community involve-
7 ment, personal health (including child obesity
8 issues), and understanding of nature.

9 (3) Fewer and fewer students are becoming in-
10 volved in important environmental education
11 courses, classwork, and field investigations as an un-
12 intended consequence of the No Child Left Behind
13 Act of 2001.

14 (4) Hands-on, experience-based environmental
15 education as part of the school curriculum connects
16 children to the natural world, and research supports
17 that time spent outdoors lessens the symptoms of
18 Attention Deficit/Hyperactivity Disorder (ADHD),
19 reduces stress and aggression, helps children sleep
20 better, and improves physical health.

21 (5) Environmental education "in the field" as
22 part of the regular school curriculum gets kids out-
23 side contributing to healthy lifestyles through out-
24 door recreation, exercise, play and experience in the

1 natural world that is critical to helping prevent obe-
2 sity and address other related health problems.

3 (6) Environmental education for elementary
4 and secondary school students is critical as our Na-
5 tion transitions to a green economy where manufac-
6 turing workers, as well as architects, engineers,
7 planners, scientists, business managers, financial ex-
8 perts, lawyers, entrepreneurs, political leaders, re-
9 source managers, and others, must be environ-
10 mentally literate to succeed in a green economy.

11 (7) Environmental education provides critical
12 tools for a 21st century workforce by providing stu-
13 dents with the skills to understand complex environ-
14 mental issues so they may make informed decisions
15 in their own lives and find solutions for real world
16 challenges facing us as a nation. Business leaders
17 also increasingly believe that an environmentally lit-
18 erate workforce is critical to their long-term success.
19 Environmental education helps prepare students for
20 real world challenges.

21 **SEC. 3. REFERENCES.**

22 Except as otherwise specifically provided, whenever in
23 this Act an amendment or repeal is expressed in terms
24 of an amendment to, or a repeal of, a section or other
25 provision, the reference shall be considered to be made to

1 a section or other provision of the Elementary and Sec-
2 ondary Education Act of 1965 (20 U.S.C. 6301 et seq.).

8 and each of the 4 succeeding fiscal years.
